

Michel Holzmann was baptized in the year 1792. He was the 71st of 83 to be recorded in the church records of 1791-1792. The church records are in Latin. I can easily pick out the word "Novembris" which is November. This could be saying that Michel was born in the month of November or baptized in the month of November. I can see the words "Sequente Die" which is "next day" in the Latin language. The record of the baptism was quite lengthy as it spills over onto a second page. Pastor Johann Philippus Wegelinus blesses the baptism. (David Heintz)
