Dearest,

I felt the best so far today.

How are Phil & Sue?

I have received paper up to & including Thursday. We have entertainment every night in the lobby, but I think I will go to see "The postman always rings twice". Entertainment is either Bingo or music, also Cards & they have a pool table.

I have been letting Mr. Divine read the Digests when I am thro with them. I get the Tribune at the news stand each day if I get them by 11:15 if not they are all gone! I read some but don't seem to be able to settle down any- to long. I do hope you don't get all tired out waiting on the children. I sent you 2 loaves of Soy Bread. To day I hope it arrives O.K. Darling I am waiting for the day when you can come. With love Abe.

P.S.

Saturday P.M. I went out in the County to McCleary Home. The home is an old one with Bellows and balcony like De Havens but Square House nothing out of the ordinary but the furniture is what you

Would I tell at all
