

Dear Mocha Moments and community,

My wife and I are truly humbled by your generosity for our baby Jayden. When we first learned of the difficulties we would face with our child, it was very difficult trying to enjoy the fact that we were blessed by God by giving us Jayden. The difficulties with Jayden's health, and the time Hope would be missing from work seemed overwhelming at the time. Despite all of these obstacles, God has opened doors and blessed us abundantly. I am a tile setter here in Florida, and the industry right now is at an all time low. God has given me extra side jobs, and I have been able to put in between eighty to one-hundred hours a week, for the past month. You and your community really have something wonderful. You will never know how much your gifts have affected and changed our lives. You have been an inspiration to our family and we will always think of you fondly, and keep you in our prayers.

Thanks again for all you have done.

With our love, The Vegter family!!!!
